Matching red cloth, gilt. New. 1,150.00  
By far the most comprehensive numismatic bibliography ever published. In the main work, 108,000 listings are arranged alphabetically and also by subject matter. The auction catalogue volume features over 15,000 listings arranged alphabetically by auction house and also by collector. Publication was abandoned several years ago and it is probable that a total of fewer than 200 sets were issued. Much of this data found in this massive, indispensable work is available nowhere else.

All in the original printed wrappers (the wrappers defective on three issues), ownership stamp of Peel Park Library on a few later issues, some wrappers a bit dusty but overall an unusually good unsophisticated set. Preserved in two uniform portfolios, labelled and lettered.  
\$375.00  
Rare when found in the original printed wrappers. A complete set of the author's own work, lacking only George Frederick Lawrence's supplement. Batty's catalogue is by any standards a monumental work. Its length and long drawn out period of publication by subscription was perhaps its greatest weakness however and led inevitably to it being overtaken by such later authors as Atkins, Davis, Waters, Dalton and Hamer. Batty himself anticipated them all by noticing (in 1868) "the great want of a combined list" which was hampering the development of "this important branch of numismatics." Batty's work has now become not much more than a rare curiosity for the connoisseurs of token literature though hidden in its pages is much important information not to be found elsewhere

Cuff, a long-time Bank of England employee, would alone make the decade of the 1850's notable. The collection, which consisted principally of British and English coins, was catalogued for Sotheby & by H. O. Curzon.

100 Edwards, Edward. THE NAPOLEON MEDALS: A COMPLETE SERIES OF THE MEDALS STRUCK IN FRANCE, ITALY, GREAT BRITAIN AND GERMANY, FROM THE COMMENCEMENT OF THE EMPIRE IN 1804, TO THE RESTORATION IN 1815, ENGRAVED BY THE PROCESS OF ACHILLES COLLAS, WITH HISTORICAL AND BIOGRAPHICAL NOTICES. London, 1837. x, 167, (1) pages, 40 excellent plates. Folio. Contemporary blue half calf, professionally rebaked, spine gilt with raised bands, top edge gilt, occasional spots and blemishes, a few plates foxed. A nice copy. 375.00  
A presentation copy donated by the author to the Royal Museum and Library at Peel Park with an inscription to that effect in the author's hand, dated January 1850. Also signed on the title-page by Edwards on September 12th 1857 (almost certainly the month of publication). On the recto of the leaf facing the title is a manuscript poem in French, also in the author's autograph, of six verses, each of six lines in pairs, of rhyming couplets, purporting to be the thoughts of Napoleon. Edwards' study of the Napoleon medals was projected in two volumes but the second never appeared. The present volume catalogues the medals up to the year 1810. The plates are of exceptional quality, certainly far better than those produced for Millingen's earlier work.

A most important work, from the library of Edward Burial with his bookplate in each volume. The present set is notable for several reasons:  
1) It is a presentation copy inscribed by Helen Farquhar on the general title page: signature a title (cropped).  
2) It includes not only all eleven parts of the literature but also two further, and closely related papers: from the RSM, namely: *The portrait of a coin* (1906) and *Some portrait medals* (1906) (reprinted 42 and 91 of the *British Numismatic Journal*).  
3) Also included are five signed autograph letters from Helen Farquhar to: "Dear Dr. Williamson" (a total of 18 pages), the letters all refer to her book of Stuart coin portraits and contain personal history and in particular to a badge given by Charles I to Richard I London.

- Clan-Stefanov 14119. Gronow page 256. Comprehensive and indispensable, this enduring work provides valuable information on coin and medal engravers and their work from ancient to modern times. The work is written in a clear and in half the length that is often now found in the original edition is usable only with great care. The 1970 Burt Franklin reprint suffers from an unsorted selected and collated mint volume. This edition, printed on supple paper and substantially bound, represents one of those rare occasions where a reprint is actually preferable to the original.

An indispensable subject index to Forrer's work, which is arranged by engraver. As Andrew Burnett notes in the preface, the *Biographical Dictionary* is "in effect, a corpus which lists and attributes almost every medal made before the beginning of this century." Joan Martin's index, published posthumously and the result of ten years of diligent work, adds greatly to the utility of Forrer's *magnum opus*.

Ink manuscript. 86 leaves, mostly written closely on both sides, key words underlined in red ink, interleaved. Quarto: 251 x 208 mm. Contemporary brown cloth-backed boards. 800.00  
The unique notebook of a German or Austrian numismatist, containing numerous entries on subjects concerning coins and coinage, arranged alphabetically, in German. Presumably handwritten by Joseph von Mader (1754-1815), author of major works on medieval coins published between 1797 and 1813. Von Mader was Professor of Statistical Pragmatics, his numismatic studies being an avocation. The alphabetical arrangement of the manuscript suggests that these were substantial working notes for an interleaved lexicon. Mader's coin collection and his books were all sold in 1818. The catalogue of his library did not include any manuscripts, however, and no mention of this notebook has been located elsewhere. (The preceding description is derived from *Sethy (Rare Books) Ltd. Catalogue 4, Spring 1981, item 109, where it was listed at £500.*)

Moreover the volume shows evidence of considerable scholarly research and has inevitably been used as a starting point for later studies of Thomas Simon's work.
